The committee discussed the objection from Psychology to the proposed change in name of the Child Care Technology program to Early Childhood Development.

Home Economics, represented by Dr. Beaubien, stated that the name change was to bring the program into compliance with the taxonomy of the OBOE operating manual for two-year programs. Psychology, represented by Drs. Sweeney Morrison and Hotchkiss, maintained that the use of the word "development" was confusing as it could be mistaken for psychological development. After some discussion a compromise was reached. Home Ec. will re-submit the proposal as a change to the title "Child Care".

The committee then received copies of a new program, Retailing: Fashions & Interiors, and a change in the Art Education program (PD 84-3 and 84-4). These proposals will be taken up at our April meeting.

Meeting adjourned at 2:45
