

Minutes

ACADEMIC STANDARDS & EVENTS COMMITTEE
October 16, 1984

Present: Dr. Barbara Brothers, Chairperson; Al Bright, James Conser, Stan Guzell, Phil Munro, Duane Rost (Chairman, Ac. Programs & Curric. Committee), Mark Shutes, Ronald Tabak

Meeting called to order at 12:00 p.m.

- I. The first official meeting of the Committee commenced with a discussion of our direction for the 1984-85 Academic Year. The following matters were introduced:
 - a. Discrepancies between statements on p. 40 of the Bulletin regarding courses meeting general area requirements and the individual course descriptions in the Bulletin which may be used to meet those requirements.
 - b. A precise clarification of courses fulfilling general requirements and legitimate substitutions for these courses.
 - c. Prevention, through the general requirements, of "double dipping," or satisfying more than one requirement with only one course. Insertion of a clause such as "all general area requirements must be satisfied outside of the student's major department" was mentioned.
- II. Dr. Guzell suggested that we might reconsider some aspects of last year's University core curriculum proposal. He argued that large-scale change was difficult to explain and comprehend, whereas small, incremental changes in the desired direction would be more easily analyzed, understood, and defended.
- III. In preparation for the above deliberations, Dr. Brothers requested of assigned members that they obtain, from their school academic advisors and/or deans, a listing of all courses which are recommended by the departments as fulfillment of general area requirements.

Meeting adjourned at 1:00 p.m.

JOELLEN HALL - SECRETARY
