

PROGRAMS DIVISION
ACADEMIC PROGRAMS & CURRICULUM COMMITTEE

JANUARY 21, 1986:

PRESENT: Brown, Curry, Delost, Deiderick, Henneman, Hoover, Kramer, and Lyons

Dean George Sutton of the William Rayen School of Engineering met with Committee members to answer questions regarding the proposal to terminate the Metallurgical Engineering Program.

JANUARY 22, 1986:

PRESENT: Brown, Delost, Hoover, Kramer, and Lyons

ABSENT: Curry, Deiderick, and Henneman

Dr. David McBride of the Cushwa Center for Industrial Development appeared before the committee to address the Metallurgical Engineering issue.

JANUARY 30, 1986:

PRESENT: Brown, Delost, Deiderick, Hoover, Kramer, and Lyons

ABSENT: Curry and Henneman

Possible recommendations for the Metallurgical Engineering proposal were considered. The informational draft which summarized all hearings prepared by D. Brown was discussed. D. Brown volunteered to prepare a recommendation to support the retention of the Metallurgical Engineering Program. The Committee will meet to discuss this recommendation at the next meeting. Hopefully, the proposal will be ready for action at the March meeting of the Academic Senate.

Respectfully submitted,

Maria Delost, Chairperson
