Re: Information and Materials

As you remember, we have a meeting in Buckeye III, on Wednesday, August 25, 1993, 1:30.

Hoping to see you there.

Enclosed for all each of you are the minutes from our last meeting.

Enclosed for those who are not on the Task Force are copies of the current drafts from the various subcommittees for each of the specific sections. Note these are DRAFTS and are NOT finished, ready for release. No attempt has been made to integrate and tighten up all the inputs into a crisp document yet. We have been in the development stage not the pruning stage so far.

Also enclosed are several pages of the attempts to identify THEMES for the University Mission focal points. These also have not been culled. Review them for the purpose of starting the juices flowing.

We will attempt to address these topics as they specifically interface with the academic side of Campus at our next meeting on Wednesday.

If you need to reach me, try leaving a message at 216-433-8457 or with Alex Pline (whose phone this is at NASA). I'll be back on campus only on Wednesday afternoons till into September.

Till then.
